Please be aware that many vehicle owners have experienced some damage to their vehicles after returning. Before leaving your vehicle consider the following options.

Leave cleaning products in the trunk of your vehicle. After a few weeks of closed doors and windows with no air circulation, mold and mildew can form on the vehicle's interior. We recommend having cleaning supplies on hand to address these issues.

Recommend items include:

Paper or shop towels

Face mask

Windex

Lysol

Other suggestions:

*Turn your wipers upside down to avoid damage in the winter months

*Disconnect your battery from the cables – This will help preserve your battery while not in use

*Basic tool set to troubleshoot your vehicle once you return
